

Polarisation filter with filter thread

Product image

Picture may differ from the original product

Description

- Linear polarisation filter with filter thread for attachment to the lens or to LUMIMAX[®] LED lighting series Spot3W and Spot5W
- Can be fixed via a locking screw
- Suitable for a visible wavelength range between 420 nm and 750 nm
- For best results, we recommend the combination of lighting and lens polarisation filters

Technical data

Article No.	303.0002.01	303.0002.08
Title	Polarisation filter M35,5x0,5	Polarisation filter M30,5x0,5
Filter thread	M35,5x0,5	M30,5x0,5
Weight	25 g	
Material	Glass filter in pickled brass	
Tariff code	90022000	
Country of Origin	Federal Republic of Germany
